

Website Privacy Statement

The CDG website does not capture or store personal information, but merely logs the user's IP address (the Internet address of your computer), to give us an idea of which part of our website you visit and how long you spend there.

In common with many other websites, the CDG site may use a standard technology called a 'cookie' to collect information about how you use the site; this is a small data file that certain websites write to your hard drive when you visit them. A cookie file can contain information such as a user ID that the site uses to track the pages you have visited, but the only personal information a cookie can contain is information you supply yourself. A cookie cannot read data off your hard disk or read cookie files created by other sites.

Some parts of the CDG website use cookies to track user traffic patterns. We do this in order to determine the usefulness of our website information to our users and to see how effective our navigational structure is in helping users reach that information. If you prefer not to receive cookies whilst browsing our website, you can set your browser to warn you before accepting cookies and refuse the cookie when your browser alerts you to its presence. You can also refuse all cookies by turning them off in your browser. You do not need to have cookies turned on to use / navigate through many parts of our website, although certain parts of CDG web pages may require a login and password.
